GRC Summit Highlights

Our 8th annual RSA Archer GRC Summit was an impressive gathering of over 600 GRC professionals, thanks to enthusiastic attendees and great participation, and a 50% increase in attendance over last year. Attendees enjoyed the peer-to-peer networking opportunities on common business process challenges while hearing thought leadership presentations for specific industries. The presentations are now on RSA Archer Community with videos coming soon; [log in](#) to view. Congratulations to the award winners for RSA Archer product ingenuity! You can also [log in](#) to see a list of the winners.

A Roadshow conference will be in a city near you this fall. Stay tuned for the schedule.

What's the ROI? Here's what Forrester Research found.

A recent Forrester Consulting report, [The Total Economic Impact of RSA Archer IT-GRC](#), indicates a 572% ROI within a three-year period. One company interviewed said that 97% of the ROI they calculated was based on the reporting tool alone. You can also [read the press release](#) or [listen to the webcast](#).

5.2 Platform Release - New Features

The new 5.2 platform includes extended functionality of Packaging as mail merge templates, Notifications, Dashboards, iViews and Letterheads. A brand new feature called Advanced Package Mapping enables users to review and modify how individual objects are mapped from the source package to the target instance. [Read the press release](#) or [log in to RSA Archer Community](#) to view the 5.2 documentation.

RSA Archer Community and Exchange

As a member, you can share ideas, vote for product enhancements, see upcoming events, and discuss trends that help guide the RSA Archer product roadmap. Here, you will also find materials that are key to the success of your GRC program. Every day you will have access to documents like Solvency II, 5.2 Platform enhancements and new blogs. Because this is a new site, everyone will need to **set up log in credentials** the first time.
